SUMMARY

React Native engineer with **3+ years** of experience, having built **8+ apps** and shipped **6+ to the App Store & Play Store** – including one serving **200K+ active users**. Specialized in the **Expo ecosystem**, **AI-powered features**, real-time communication, secure payments, and end-to-end **CI/CD automation**. Strong focus on performance optimization and clean, maintainable architecture across the full mobile lifecycle.

EXPERIENCE

Senior React Native Developer Antino Labs

📅 02/2026 – Present 📍 Gurugram, India

- **Tripare.Ai**: Architected the Corporate Travel & Expense Management app using the **Expo Preview Workflow** for cross-platform parity.
- Designed end-to-end **CI/CD pipelines using GitHub Actions** for Dev, UAT, and Production environments.
- Implemented **OTA updates via Expo Updates** for instant feature rollouts without store-review delays.
- Integrated **Boxpay SDK** for multi-channel payments and delivered notifications via **Expo Push, FCM & APNs**.
- Configured **Universal Links, App Links & Deep Linking**; built gesture-driven UI with **Reanimated & Gesture Handler**.
- Integrated native auth (**Google Sign-In, Sign in with Apple**); managed App Store/Play Store releases with **Firebase Crashlytics**.

React Native Developer (Contract) Bansal Technology

📅 10/2025 – 02/2026 📍 Bhopal, India

- **ToneOp**: Enhanced stability and performance for a wellness platform serving **2 lakh+ (200K+)** active users.
- Built an **AI Health Assistant** using **AWS Bedrock/SageMaker** for personalized health, fitness, and nutrition guidance.
- Integrated **Razorpay** for subscriptions, consultations & e-commerce, and **New Relic Mobile** for performance & crash monitoring.
- **Appofit**: Initiated and architected a fitness platform for trainers, gyms, and dietitians from scratch.
- Integrated **Google Fit & Apple HealthKit** for wearable data sync and **Twilio** for trainer-client in-app chat.
- Engineered push notifications using **FCM & Notifee**; implemented secure logout with persistent state across reinstalls.

React Native Developer TechAhead

📅 06/2023 – 10/2025 📍 Noida, India

- Developed & deployed scalable iOS and Android apps; contributed to **5+ applications**, publishing **3 production apps** on both stores.
- Built real-time 1-to-1 and group chat with **PubNub** – presence, typing indicators & message synchronization.
- Integrated **Twilio Voice SDK** for in-app calling – custom call UI, history, VoIP push & call-lifecycle management.
- Implemented payments with **Stripe, PayFort, BoxPay, Razorpay & In-App Purchases**.
- Integrated **Firebase** (FCM, Crashlytics, Analytics, Dynamic Links, Remote Config, Auth) & **Deep Linking** (Universal/App Links).
